A truly one-of-a-kind display of your images! Printed directly on fine art canvas and wrapped around a hardwood frame, these vibrant and durable prints add a beautiful dimension by extending out from the wall. These prints do not require the hassle of framing and are not prone to trends that frames can be. This means you will have a simple, elegant, and gallery-quality art no matter how many times you redecorate or move. No special trips to the hardware store either as they come ready to be hung and impress straight out of the box.

ULTIMATE PRODUCT

HIGH RESOLUTION NEGATIVE COLLECTION

Since we live in digital times, purchasing the digital files from the session is a very popular option for many clients. There are many benefits to owning a hard copy of your images: unlimited printing for yourself, friends and family, designing and printing your own holiday cards or birth announcements, web sharing, and photo archiving. When purchasing ALL edited digital files from your session the need to choose your favorite shots while leaving some behind is eliminated!

I believe in protecting your most precious investment so I include care instructions for your files and recommend a quality print lab.
